

3-25-2015

Dear Family & Friends,

It is that time of year again! We need your help to raise money to cure Cystic Fibrosis.

Dr. Mark Kurth in the Chemistry Department at UC Davis has some very special graduate students working on exciting developments to not only cure Cystic Fibrosis but cure one of the main bacterial infections that invade the lungs of Cystic Fibrosis patients called *Pseudomonas aeruginosa*, commonly referred to as PA.

The problem with the gene Tara is affected with, called  $\Delta F508$ , is two fold. First, we must get the CFTR protein to the cell surface, with what is called a corrector. Second we must get that CFTR protein to function on the cell surface, with what is called a potentiator. The FDA recently approved a potentiator for use in patients that have a broken CFTR protein on the cell surface. Remember, Tara's protein is not only broken, there's no way for it to get to the cell surface yet. This new potentiator won't help Tara today, but maybe someday we'll have a co/po, "corrector and potentiator", to help patients like Tara with Cystic Fibrosis that have this most common gene and basic defect.

As the "Tara K. Telford Graduate Student Award" is an endowment it will generate research dollars on a yearly basis. All additions to the fund will serve to increase the annual payout. Please join us in finding a cure for Cystic Fibrosis by supporting this research at UC Davis. Our goal is to raise \$5,000 in 2015.

To support the "Tara K. Telford Graduate Student Award" please print the attached form and mail your tax deductible donation to us. We plan to turn over all the collected donations to UC Davis by July 31, 2015.

Or, you can now donate online!

Please go to: <https://give.ucdavis.edu/GRAD/150006>

From there, simply click on the "DONATE TO THIS FUND" button and your generous tax deductible donation will be directed to the proper fund.

Thank you for all your generous donations, past and present!

## Tara K. Telford Graduate Student Award

The Tara K. Telford Graduate Student Award was created through the generosity of Allan and Jean Telford to support graduate student research to find a cure for Cystic Fibrosis. The fund will give first preference to students working under Professor of Chemistry Mark Kurth, whose research is focused on small-molecule therapy to correct the ΔF508 gene mutation – the mutation identified in nearly 90% of all CF cases. This fund was created in honor of the Telford’s daughter-in-law Tara, a UC Davis alumna, who is courageously living with this inherited chronic disease. Thank you for your consideration!

**YES, I/we want to support the Tara K. Telford Graduate Student Award with a tax-deductible donation of:**

\$100       \$50       \$30       Other \$ \_\_\_\_\_

Enclosed is a check payable to the UC Davis Foundation

Please charge my/our gift to (please circle): **Visa    MasterCard    American Express    Discover**

**Card number:** \_\_\_\_\_ **Expiration:** \_\_\_\_\_

**Name on Card:** \_\_\_\_\_

**Signature:** \_\_\_\_\_

**Donor Information:**

Name(s) \_\_\_\_\_

Address \_\_\_\_\_

Phone \_\_\_\_\_

Email address \_\_\_\_\_

How to list donor name(s) for recognition: \_\_\_\_\_

I/We wish to remain anonymous to the extent allowed by law

**Please return this form to:**

Paul and Tara Telford, 10300 Nick Way, Elk Grove, CA 95757

**Questions regarding donations can be directed to:**

Janet Berry, University Development, UC Davis Conference Center (2nd Floor),  
One Shields Avenue, Davis, CA 95616. For more information, please contact (530) 754-2001 or  
e-mail [jsberry@ucdavis.edu](mailto:jsberry@ucdavis.edu).

The 1977 California Information Practices Act requires UC Davis to provide the following information to individuals asked to supply information about themselves: UC Davis is requesting this information to maintain accurate donor files in the Office of University Relations. Furnishing the information is strictly voluntary and it will be maintained confidentially. The information may be used by other university departments in the regular course of business but will not be disseminated to others except if required by law. You have the right to review your own data file. Inquiries should be forwarded to the Advancement Services, University of California, One Shields Avenue, Davis, CA 95616. The University is grateful for the support it receives from alumni and friends. One of the ways our thanks is expressed is through listing the names of donors in various publications. Should you wish that your name not appear as a donor, please notify us if you have not already done so. It is the policy of the University of California, Davis and the UC Davis Foundation to utilize a portion of the gift principal and/or the short-term investment income on current gifts and grants to support the cost of raising and administering gift funds.
